December	Sunday The 9th 2:00 PM
December	Sunday The 23rd Christmas Day of Prayer in Hickory Hills, IL 9:am-4:00pm

Testimonies

CHRISTINE J. Chicago, Illinois HIV-AIDS

In Winter, 1995, I was studying for my Master's Degree at the University of Illinois, Chicago Campus. I had for a time been experiencing a lot of symptoms of what I first thought was a very bad flu, but then the symptoms continued and escalated, and I was having difficulty even walking, and having no energy. I decided to have a physical, as my insurance was expiring soon. To my horror, I was diagnosed as being HIV-POSITIVE. Because of the prognosis, I decided to have faith and turn to a higher power, Jesus, who was my only hope. I called around, and asked if there were any Christian healers in the area, and I was given the name of Barbara O'Malley. In early March, 1995, I went to my first Healing Service, and felt so peaceful after Barbara prayed with me. Two days later, I went in for scheduled tests, and the results were that my counts had improved 33%. My doctor thought it was a mistake, and re-tested me, and the results were correct. I began to feel stronger, and joyful in my outlook, and I went to several more Healing Services, and each time I went, different symptoms began to disappear, until in late May, 1995, I was free from all symptoms and tested HIV-NEGATIVE! My doctor has since sent, and re-sent my tests all over the country and the results are the same, and despite his amazement, I was given a clean bill of health, Jesus healed me of HIV! I had the faith he would do it, and He did I want to thank Jesus for loving me and healing me, and I want to thank Barbara O'Malley for sharing her gift of healing.

[ART RYAN Sun City, Arizona](#) [Severe Heart Failure](#)

After surviving several heart attacks I developed congestive heart failure and was scheduled for open heart surgery. I attended a healing service with Barbara O'Malley at St. Anne's church in Gilbert, Arizona. A few days later, when I went into open heart surgery, THEY FOUND THAT I HAD A NEW HEART! The damaged 33% of the left ventricle was restored and there was no more weakening of the ventricular wall (aneurysm). My heart was functioning normally. The doctor proclaimed it a miracle! Once again God almighty had again given me a new heart and a new life!
